Alpha Modalities

*Your Sling Source for Safe Patient Mobilization*

***Alpha Modalities LLC*** is headquartered just outside of Seattle, WA. We began in 1996 with the vision of providing clients with well-integrated Safe Patient Handling solutions that focus on safety, compatibility and cost-effectiveness.

We are innovators in providing quality solutions that are comfortable for patients of all sizes. We offer variety of poducts to help with ambulating, repositioning, boosting and turning patients.

## What makes us DIFFERENT?

- ***Quality*** training programs
- ***Responsive*** customer service
- ***Individualized*** Programs - we work with you to determine which solutions meet your needs
- ***Unlimited*** 3 year warranty
- ***Made in the USA*** - All of our materials and products are manufactured in the United States
- ***Experience*** - We have been the ***Sling Specialist*** for over 25 years
- ***Compatibility Guaranteed*** - All of the slings that we design and manufacture can be used with all ceiling ***and*** floor based lifts sold in North America. We test our slings with various manufacturers' hanger bars for compatibility to ensure that they are safe to use and are comfortable for the patient.
- ***Unlimited 3-year warranty*** - covers manufacturing defects, fabric wear and tear and loose threads. We repair or replace any sling found to be defective in manufacturing at no cost while under warranty.

***OUR PRODUCTS ARE :*** *PROP 65 COMPLIANT, LATEX FREE and MADE IN THE USA*

Four material options:

- *Open weave mesh for bathing and general use*
- *Tight weave mesh*
- *Urethane coated nylon - easy to wipe clean*
- *IT–wicking material w/ woven antimicrobial (Bari line only)*

Amputee Strap option available

## A-SitOnSling

**Full body support, without splitting the legs, while transferring to/from bed, chair, toilet, commode and wheelchair.**

Our Grey IT material wicks away moisture and is antimicrobial. It is designed to remain underneath the patient for longer periods of time.

The sling offers support from the patient's shoulders to their knees.

**Seated sling used to transfer to and from bed, chair, toilet, commode and/or wheelchair with a belt to provide waist support.**

IT material which wicks away moisture and is antimicrobial is designed to remain underneath patient for longer periods

Low back - support offered from knees to the shoulders of the patient

Amputee Strap option

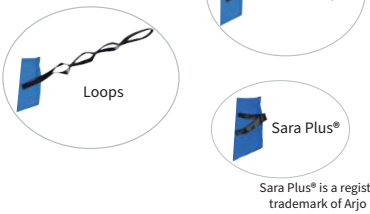
**Our SitStand belt is designed to assist with early mobility. It is used with a powered mobile lift to assist a patient to a standing position.**

Inner safety belt is adjustable and made of a nonslip material

Easy to wipe with hospital grade disinfectant and will be ready immediately after cleaning

Welded seams - eliminates the potential for fluid contamination

Multiple attachment options



Sara Plus® is a registered trademark of Arjo Inc

## Our wipeable WalkVest provides safety to patients who are at risk of falling while ambulating.

Urethane coated nylon wipes easily

Chemical and heat sealed seam

Design allows for toileting by releasing the clip on the groin straps

## A-BariV Series

**To assist patients of size with ambulation and gait training. Enables patients with limited mobility to safely and comfortably ambulate.**

Two material options:

- *Tight weave mesh*
- *Urethane coated nylon - easy to wipe clean*

Washable BariVest has a scrotum pouch for patient comfort.

# A-Pannus

**Used to assist in moving and holding patient's panniculus away from the body for cleaning skin, wound checks, and/or dressing changes.**

Compatible with loop lift systems or can be used manually

Made with our IT material - wicks away moisture and is antimicrobial

Comes with an extender belt kit which will extend the length of the bottom attachment loops

Optional accessory- O'Ring Headboard Straps

Access port for cleaning or exam

## Helps to keep patient on their side or to prevent sliding down in bed.

The wedge is sealed to allow for easy cleaning by wiping down with hospital approved disinfectant
