

The Sling Specialist in Safe Patient Mobilization

New Sling Labels- Washable/Wipeable

October 2018

In order to be in compliance with the new guidelines set forth by the FDA regarding UDI barcodes, we have begun to implement our new label design. Initially, you will begin to see these new labels on our washable seated slings and washable TSL slings. Eventually, all slings, including custom slings, will have these new labels with the only exception being our SPU/ECO line.
