

Your Sling Source for Safe Patient Mobilization

1 April 2020

Update on COVID-19 | Alpha Modalities LLC

During this time of uncertainty, we are committed to providing the necessary products and support to our clients who are serving the needs of their communities. In order to ensure the continued manufacturing of our products, we have dedicated ourselves to make the health and safety of our employees a priority by implementing guidelines based upon the latest recommendations of the CDC, OSHA and the State of Washington.

- All employees have been briefed on and will be compliant with all relevant and updated recommendations
- We have some of our office/support staff working remote in order to reduce the number of employees in the office
- Work stations have been moved to meet the current standards for social distancing
- We have established cleaning and disinfecting processes for our production facilities and equipment used in the production facility
- Employees are encouraged to wash their hands frequently
- Hand sanitizer stations have been placed in multiple locations
- Employees are monitored daily for signs of infection
- Employees are extended paid time off for matters relating to the current pandemic

We appreciate your continued support and we thank you for trusting us to supply you with the products needed that will help in patient care and staff safety.

Cordially,

Tim J Kuzma | Director
